

AW21 OPTICAL COLLECTION

Designed for a world playing by new rules, the Hackett Bespoke AW21 optical collection is inspired by contemporary times whilst staying true to Hackett's timeless DNA of quintessential British style.

Discover the latest optical range featuring an array of Hackett signature design elements, premium materials, and the excellent craftsmanship expected of this great British brand. Drawing inspiration from classic vintage details and combining sartorial elements from the exceptional Hackett Bespoke tailoring tradition, the new AW21 optical offering is quietly sophisticated and refined.

Beautifully capturing the timeless essence of the collection is **HEB282**, a premium metal style. This design showcases a double bridge, for a timeless retro feel, combined with a deep square shaped front. The upper part of the temples have a moulded texture in a criss cross design, for an additional sense of antique appeal, a signature element that has been carried over from the previous Hackett eyewear releases. The temples also bear the newly designed moulded 'H in the box' logo detail and long acetate temple tips in rich tortoise hues.

Crafted from acetate, **HEB280** is an optical style ideal for autumnal walks and trips out to the countryside. This design is available in stylish colourways from rich **Amber Tortoiseshell**, capturing the ambience of autumn, to rich **Dark Navy**. For an extra dose of Hackett finesse, the style also features the signature 3-D 'H in the box' logo plaque studded on the temples, an element inspired by Hackett cufflinks, paired with contrast temple tip laminations.

HEB279 is a confident and authentic panto style featuring a classic Windsor rim contraction for a timeless model for the sophisticated gentleman. A perfect example of Hackett

craftsmanship is evident in the 'H in the box' embellishment, running throughout the AW21 collection, accompanied by a delicate ribbed liner pattern showcased on the slim metal temples. The warm **Copper** version is perfect for this season, and features acetate temple tips with complementary honey tortoiseshell hues.

As always with Hackett Bespoke eyewear, designs are stylish without compromising comfort for the gentleman at work and play.
