

## HACKETT SUN22 COLLECTION

Quintessentially British, Hackett's latest collection of **SUN22** sunglass styles takes the Hackett man seamlessly from work to play, while remaining effortlessly attired. Divided into three distinct design tiers – Hackett London, Hackett Bespoke and Hackett Signature – the new, comprehensive SUN22 collection offers the perfect eyewear for discerningly stylish Hackett men during the warmer months.

### Hackett London

Youthful and energetic, style **HSK3340** is the perfect summer fit for the *Hackett London* man. A panto eye shape is paired with a keyhole bridge for a classic and timeless silhouette. Displayed along the temples of this horn acetate model is a newly designed logo plaque inspired by the brand's partnership with iconic luxury British sports car manufacturer, Aston Martin. As always with Hackett, both style and comfort walk hand-in-hand, thus this design features flex hinges for added comfort. Inspired by polo style graphics, the very ends of the temple tips are adorned by colour-pops of red, white, and yellow signing off the design in style.

HSK3340

## Hackett Bespoke

From the *Hackett Bespoke* **SUN22** release, **HSB916** is a striking statement style for the summer season. This 1980's retro-inspired racing style features a sophisticated metal and acetate construction with an oversized tear drop front, adding the perfect athleisure nod. Adding a further bespoke, premium element, and a reflection of the quality of Hackett's bespoke tailoring, the metal parts of the structure feature a laser etched 'H' pattern. This model also showcases a newly designed temple, the perfect mix of acetate and metal. Crafted in acetate, the upper part of the temples connect to the matching acetate temple tips via a slim piece of metal. Functionality meets form in this model, as the lenses showcase an anti-reflecting blue coating to aid all sporting adventures. This style is available in a sophisticated **Matt Black** option with brown lenses.

For Hackett enthusiasts, **HSB915** is the perfect style featuring a healthy dose of Hackett branding throughout the design. The front of the model features a metal top bar for a retro feel, engraved with a Hackett logo which is visible from the top, and paired with a lightweight Windsor rim construction. The wide-to-slim metal temples bear the signature 'H in the box' logo with a laser etched 'H' pattern for an elevated embossed look. Presented in a masculine **Shiny Gun** colourway, this is a style that easily slips into your summer wardrobe and works perfectly with elegant tailoring as well as more dressed-down casualwear.

## Hackett Signature

The premium *Hackett Signature* **SUN22** range offers a selection of styles speaking to the refined Hackett gentleman with impeccable taste, and designed to elevate every classic men's summer outfit. Crafted from the finest of materials and featuring bespoke design elements, all Hackett Signature sunglasses styles feature best-in-class Zeiss lenses which are also available in its optical counterparts.

An oversized frame, **HJP802** has a distinctly sporty aesthetic and is crafted from premium Japanese acetate. This lightweight model features a tortoiseshell lamination on the double bridge and on the temples, extending into the end tips in the same colour as the top bar. Further enriching the temples, a metal plaque bearing the eponymous 'JPH' initials of Hackett founder, Jeremy Hackett, adds panache to the design.

With its sophisticated circular panto shape, **HJP803** has a slim titanium front topped with a textured double bridge and features titanium nose pads for strength and durability. An engraved pattern is

stamped into the premium engineered temples and temple tips with the most subtle of signatures placed on the hinges.

Luxurious style **HJP804** is expertly crafted in Japanese acetate with a vibrant horn-effect pattern for the ultimate sophisticated gentlemen's accessory. This timeless design showcases a classic panto front and keyhole bridge paired with thick temples featuring the gold signature 'JPH' logo engraved on either side.
