## SUN22 COLLECTION

The Maje **SUN22** eyewear collection is designed to transport you into a hypnotically seductive summer season. Sunglass silhouettes are feminine and elegant, colours are sophisticated and chic, and design details are fresh and innovative. With the latest **SUN22** capsule collection let Maje transport you to an everlasting sunshine-state-of-mind where light dances across the ocean, you feel the soft warmth of sea breeze on your skin, and cast your gaze across eternally hazy summer sunsets.

Inspired by oversized vintage styling, **MJ5029** is a feminine retro silhouette featuring a soft rounded top which is paired with an angular shape at the base for a chic and sophisticated twist. The temples of this design showcase an ultra-lightweight metal sandwich construction for a premium feel. Following the typical 1970's colour palette, and adding a sense of vintage glamour, this style is available in a new and highly fashionable rich **Tortoiseshell**. An elegant and modern frame, this style is perfect for breakfast in Paris or twilight strolls along the city's famous canals.

With a nod to early 1970's oversized styling, **MJ7019** showcases a modern, geometric hexagon shape, available in a gorgeous sunny **Crystal Yellow**. This bold acetate and metal combination frame creates a feeling of suspension with ultra-thin metal beautifully contrasting with the crystal-coloured acetate. It also features moulded metal tubular temples which, when opened, reveal hidden Maje branding - a discoverable summer treasure. This frame is available in a delicate **Rose Gold** option, as well as a light **Champagne** version with green graduated lenses.

**MJ7024** is an oversized pilot shape with a beautiful teardrop silhouette for a laid-back summer vibe. To add a sense of lightness to the frame, each end piece features an intricate nylon wire rimless construction. In colour pops of blue, pink, and champagne, the enamel filled logo plaque sits pretty on the slim shiny metal temples. The more masculine shape of this style is imbued with a feminine and delicate palette of **Shiny Blue** or **Shiny Rose Gold**, striking a contemporary balance between the masculine and feminine.
