## PEPE JEANS SUN 22 COLLECTION

Taking its design cues from the frenetic and diverse energy of London's street style, this season's Pepe Jeans London **SUN22** sunglass collection is a fun and vibrant celebration of the world's most exciting city, no matter what your style tribe.

### WOMEN'S RANGE

With its statement unisex fashion shape, the chunky plastic **TALISA PJ7392** is an on-trend style perfect for this forthcoming summer season. Chunky temples feature graduated two-tone hues in colour combinations such as **Milky Grey** paired with **Baby Blue**, as well as **Crystal Peach** matched with **Magenta**. Adding a premium construction element to the style is a five-barrel hinge for ease of movement and optimal functionality.

Following the same chunky trend story, **GILLY PJ7391** is a sleek slightly cat-eye silhouette. The temples of this model feature a subtle tortoiseshell pattern for a chic twist. This style is available in a dynamic and striking **Crystal Madder** option, with a vibrant crystal **tangerine** front, the perfect hue for soaking up the summer sunshine.

Meet **MARGAERY PJ5186**, a directional 1970's inspired metal eye shape, ideal for beach days and summer city breaks alike. The front of this model features a lightweight rimless construction that's effortlessly cool. A new cut out design adorns the temples and the nose bridge for a refreshing twist. Feminine gradient lenses sign off this metallic number. The **Shiny Light Gold** version is a fun street-chic style to transition day-to-night looks.

## MEN'S RANGE

**RAMSAY PJ7396** features a classic front for a timeless and easy-to-wear shape. Adding a retro element, the front of the frame is adorned with a moulded metal pin detail paired with keyhole nose bridge for a vintage vibe.

**ROBB PJ5192** is a fresh metal style taking a contemporary hexagonal shape and showcasing a cut-out metal detail on the nose bridge. Effortlessly stylish, the temples of this design also bear intricate cut-out metallic details. The design is signed off with acetate temple tips in colours complementing the frame. See the **Dark Iridescent** version with gradient lenses that transition from **Blue** to **Violet**, to uplift summer menswear looks, this season.

**TYRION PJ5191** is a sporty twist on a timeless masculine design. The perfectly circular front features colourful accents to its metal structure adding fun personality and seamlessly reflecting Pepe Jeans London's values of uniqueness and authenticity. The metal top bar of this design adds a dynamic feel, ideal for the youthful and energetic Pepe Jeans London man. TYRION is available in an array of masculine colourways such as **Satin Gun** featuring matching khaki green lenses and acetate temple tips.
